

## INTRODUCTION

Good afternoon everyone! My name is \_\_\_\_\_, and I'm the *title here* of *organization name* and the organizer of this year's \_\_\_\_\_  
**Conference.**

Let me ask you this:

Have you ever wondered whether “one size-fits-all” when it comes to antidepressants?

Are you concerned about the safety and efficacy of herbal products for the treatment of depression?

Do you ever become frustrated with the client who refuses antidepressants in spite of continuing symptoms?

Well, if you have, you are in the right place today because Joe Wegmann is here to help you dissect and understand today's antidepressants, their safety and effectiveness, alternative treatments for depression and, most importantly, how you can become more effective advocates for your clients suffering from depression.

Joe Wegmann is a Licensed Clinical Social Worker and a Clinical Pharmacist with a sub-specialty in Psychopharmacology. He has been a featured speaker at the Gulf Coast Social Work Conference for over 10 years, and as you can see from this afternoon's attendance, his sessions are always jam packed! Joe has served as Adjunct Professor of Psychopharmacology at the Southern University School of Social Work in New Orleans for 16 years. He maintains an active psychotherapy practice specializing in depression and anxiety.

Joe's new book, *Psychopharmacology: Straight Talk on Mental Health Medications* is available for sale today. And consider signing up for his FREE e-newsletter: **MH Med Solutions for Clinicians.**

Please join me in welcoming JOE WEGMANN
